DETAILED ACTION

Response to Amendment

1. Applicant's amendment and accompanying remarks filed 7/10/06 have been fully considered and entered. Claim 1 has been canceled and claims 2-6,7-9,12 and 14 have been amended as requested. Applicant's amendment to claim 2 is found sufficient to overcome the 112 2nd paragraph rejection set forth in section 8 of the last Office Action. As such, this rejection is hereby withdrawn. Applicant's cancellation of claim 1 renders moot the prior art rejections set forth in section 10 of the last Office Action. As such, this rejection is hereby withdrawn. Applicant's amendments are found patently distinguishable over the prior art made of record and claims 2-16 are now found allowable for reasons set forth herein below.

Terminal Disclaimer

2. The terminal disclaimer filed on 7/31/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 7,012,032 has been reviewed and is accepted. The terminal disclaimer has been recorded. As such, the obviousness double patenting rejections set forth in sections 2-5 of the last Office Action are hereby withdrawn.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: Claims 2-16.

Claims 2-16 are found allowable because the closest prior art made of record fails to teach or fairly suggest the limitations set forth in claim 4 parts b and c II, claim 5, parts b and c II, claim 6, parts b and C II, claim 12 parts b and C II, and claim 14 parts b and C II. An updated

Art Unit: 1771

search did not produce any substantial art for which to base a rejection and no motivation presently exists to combine references to form an obviousness type rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
